STATEHOOD ASSURED.

Bailey Roars But Bill Passes.

Money Also Opposes Measure but He Throws Bouquets at Western Men.

Patterson Quits Gracefully by Having Some Fun at the Majority's Expense.

Dubois Makes a Sensational Attack on Mormonism and Sees His Finish.

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, June 13.—Senator

Bailey today called on the

conference room on the

Statehood bill in the Senate today

and after almost three hours of discussion

it was adopted without division.

Senator Bailey indicated his

displeasure over the location of the capital

of the proposed new State of Okla-

homa at Guthrie, but said that Okla-

homa and Indian Territory had been

kept out of Statehood so long that he

would make no effort to defeat the

report.

He declared the effort to link those

Territories with New Mexico and Ariz-

ona was inexcusable and expressed

the hope that the separate vote at

lowed to the latter pair would settle

for all time the question of their con-

sideration as one State.

Senator Money objected to the union

of Oklahoma and Indian Territory. He

expressed especial regret that Demo-

cratic Senators are uniting with Rep-

ublicans in bringing about the result.

He also declared that if the two

Territories were in the North not a

man on the Republican side would

vote to unite them. Dakota with only

a fraction of the population of New

Mexico and Indian Territory had been

divided into two States in order to

secure four United States Senators.

MONEY THINKS HE IS ALONE.

He expected, he said, to cast the

only vote in opposition to the adoption

of the report but he would "never

sanction the outrage."

He also spoke of the liquor privilege

as causing just indignation on the part

of the people, saying that it is a re-

sult of that "pharisaical cant and hy-

pocrisy which leads them to scrutinize

with great care the sins of others

while totally oblivious of their own."

He pleaded for the right of the new

State to regulate its own affairs and

declared that he would not give 100,

000 people of the West for 500,000

people of the East because one west-

ern man is worth five eastern men in

all the elements of self respect, cour-

age and manhood and could take bet-

ter care of his morals than could per-

sons of the "effete East."

Some countries might require blue

laws, but not the West. In conclusion

he denounced the bill as sectional and

partisan.

FORAKER REBUKES MONEY.

Senator Foraker deprecated the tone

of Mr. Money's speech, saying it was

the first time since he had entered the

Senate that he had heard a speech

based on sectional issues.

The Democratic member of the

Conference Committee, Senator Pat-

terson, made a statement of his reasons

for assenting to the report. Speaking

of minority members he likened

them to the vermin appendix, saying

that their principal office is to

cause irritation and that for all prac-

tical purposes they might as well be

paring Rhode Island to New York.

said it was more majestic because its

two Senators were present in the Sen-

ate while New York's Senators were

not.

He predicted that such legislation

as this would be resorted to until

a two-thirds Republican majority is

assured, and said that such possession

of power is liable to result in the ex-

pulsion of any Senator who would

dare to express his sentiments.

"I would not impute that desire to

Senators on the other side," he said,

"but I confess I dread you when you

get the power—I dread you."

DUBOIS SEES HIS OWN DEFEAT.

Senator Dubois found fault with the

report because of the omission of the

anti-polygamy amendment as applied

to Arizona.

He declared that there are many

polygamists living in that territory,

and that once Arizona is admitted to

Statehood the Mormon hierarchy

would control politics. He then said:

"I know what this statement means

to me; it means the end of my polit-

ical career. I have given no quarter

and have asked none. I enjoy the life

and duties here and I would have had

a continuous service in the Senate but

for this conflict."

"I would not have been defeated in

1894, but for this hierarchy, and I

know that no man can now be elected

to the Senate from Utah, Idaho, or

Wyoming who antagonizes the hier-

archy. I warn the Senate that it is

in playing with fire. I shall never vote

for the report."

The report was then, at 2:10 p.m.,

adopted without division.

By the terms of the conference re-

port on the Statehood bill adopted by

the Senate today, Indian Territory and

Oklahoma are to be admitted to the

Union as one State under the name

of Oklahoma. The Territories of New

Mexico and Arizona are to be admitted

as one State under the name of Ariz-

ona, provided the people of each of

these Territories vote for joint State-

hood at an election to be held on No-

vember 6.

STANDARD LETS

CHARGES PASS.

OIL TRUST MAKES NO DEFENSE

Accusation of "Banditism" Which

Court by Attorneys and Witnesses

for the Company, Goes Unchal-

lenged and No Witnesses Appear.

(BY THE ASSOCIATED PRESS—P.M.)

CLEVELAND, June 13.—[Exclu-

sive Dispatch.] The Standard Oil Com-

pany today made no defense before the

Interstate Commerce Commission in

the charge of commercial banditism

which has been hurled against the com-

pany and repeatedly by scores of

witnesses.

After having demanded "a day in

court" and after having stated that

the Standard Oil Company could not

permit the testimony adduced before

the commission to go unchallenged and

after asserting that company would

refute every charge made and would

clear itself of whatever charges it may

have been cast upon it, it has been

decided to permit the long array of

accusations to go unchallenged so far

as rebuttal testimony is concerned.

The Interstate Commerce Commis-

sion is in receipt of a letter from Vir-

gil P. Kline, attorney for the Standard

Oil Company, to the effect that he will

not produce any witnesses at the hear-

ing which the commission is to conduct

here beginning tomorrow.

The Standard has marked its bat-

teries prior to the opening of the sec-

ond Cleveland hearing before the In-

CHOICE OF EDITORS.

Democrats Hurrah For Bryan.

Convention of Newspaper Men at Indianapolis Gives Preferences.

Republicans Unanimous for the President to Succeed Himself.

Scribes Decide Not to Ask Congress to Award Them Pass Privileges.

(BY DIRECT WIRE TO THE TIMES.)

INDIANAPOLIS, June 13.—[Exclu-

sive Dispatch.] Interviews today

were sought with editors from all

parts of the country who are here at-

tending the National Editorial Asso-

ciation meeting, on their preferences

regarding Presidential candidates.

The Democratic editors are unani-

mous for William Jennings Bryan,

while the Republicans are equally so

for President Roosevelt if he can

be induced to run again.

These editors are assembled from

all parts of the United States and are

very close to the farming and small

village vote, so their opinions are val-

uable, as they speak from intimate

knowledge of actual conditions in the

country.

The Democrats want tariff revision

and thorough legislation to curb the

trusts, and the Republican editors

aim is practically in the same direc-

tion. It also was shown that the so-

called gold Democrats were returning

to the old camp. The Hearst senti-

ment was so scarce that it is not no-

ticeable.

Some Republican editors believe that

Speaker Cannon would be the most

available candidate, but the majority

say that the President is the only man

who can win for the grand old party.

UPHOLDS ALLEGED MURDERERS.

Among the papers read before the

association was one by Avery C.

Moore of Wetmore, Idaho, on "The

Slander of a State."

Mr. Moore discussed the case of the

men accused of the murder of former

Gov. Steunenberg of Idaho, and re-

ferred to E. V. Debs, who charged the

State with being about to commit

murder in the name of justice.

"No charge so infamous and untrue

as that," said Editor Moore, "was ever

before conceived by the genius of evil

and hurled at an American State."

DROP PASS QUESTION.

In his annual address, delivered to-

day to the members of the National

Editorial Association, President Dym-

ond, of the New Orleans Planter,

made a plea for the use of good

English in the newspapers of the

country.

A motion to memorialize Congress

to exempt editors from the operation

of the anti-pass clause in the railroad

bill was brought up.

On motion of W. S. Capeller, presi-

dent of the National Republican Asso-

ciation, the motion was tabled by a

close vote. Mr. Capeller took the po-

sition that the editors should not take

any action.

EMPIRE CANNOT BE SEIZED.

agua, aid to be assisting the Guate-

KILLED IN HIS HOME BY TWO BURGLARS.

JOSEPH SCHOET, who was brutally murdered by burglars in his home early this morning.

JOSEPH SCHOET was brutally murdered at 1:30 o'clock this morning by two burglars, who had just finished plundering his home, No. 634 San Julian street.

The men were discovered by Mrs. Schect, who called to them and demanded to know what they were doing in the house.

"Shut up, or we will kill you," blazed one of the men to the woman. Mrs. Schect screamed and awakened her husband, who raised up in his bed. In the dim light from a nearby lamp making an excellent target for the two robbers, who began firing almost at the same time.

One of the men aimed his revolver directly at Schect's heart, and the bullet pierced its mark.

A moment later the other burglar fired, the second bullet entering the skull directly over the right eye.

Neither shot would have been fatal in itself, and Schect died instantly.

The second shot was fired at such close range that powder burns stood out prominently on his forehead.

The two burglars ran from the front door of the little home and into San Julian street.

In the darkness it was an easy matter for them to make their escape, and although the patrol arrived at the scene of the murder a few minutes afterward, it was impossible to obtain any trace of the direction taken by the men in their flight.

Creased with horror at the murder of her husband before her eyes, Mrs. Schect rushed madly into the street, screaming that her husband had been killed.

Neighbors for blocks around were aroused by the woman's cries and dozens came rushing to the scene of the shooting.

Mrs. Schect's grief was pitiable. She refused to be comforted by friends, who took her into their home, and pleaded pitifully that her husband might be returned to life.

To a Times reporter the woman told her simple story, amid tears and sobs most heartrending.

"I awoke from a deep sleep by a slight noise near our bedside. I awoke and in a dim light made out the forms of two men standing almost directly over me.

"I asked them what they wanted, and one of them with a torrent of abuse told me to shut up. My screams

PITH OF NEWS FROM THE MIDDLE WEST.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, June 11.—[Exclusive Dispatch.] It was officially announced today that the period of shivers is to continue the remainder of the week. With remarkable steadiness the chilling winds continue to blow from the northwest. Official statements dealing with areas of high pressure of great magnitude located over Lake Huron hardly satisfied the owners of new white gowns more or less porous in construction. Tonight there is a cold rain. Maximum temperature 64 deg., minimum 54 deg. Middle West temperatures:

SHRINERS VOTE TO MEET HERE IN 1907.

(BY THE ASSOCIATED PRESS—P.M.)

CHICAGO, June 13.—The thirty-third convocation of the Imperial Council of the Ancient Order of the Mystic Shrine came to an end today with the election of officers.

The retirement of Henry A. Collins of Toronto, Can., as Past Imperial Potentate resulted, according to custom, in the advancement of subordinate officers, and in consequence chief interest centered in the lowest office—Imperial Outer Guard. There were seven candidates for this office, but after the second ballot, when Dr. J. Putnam Stevens of Lexington, Me., backed but three votes, the six other candidates withdrew.

The new officers of the Imperial Council follow:

Imperial Potentate, Alvin P. Clayton, St. Joseph, Mo.; Imperial Deputy Potentate, Frank C. Roundy, Chicago; Imperial Chief Rabbi, Edward J. Alderman, Marion, Iowa; Imperial High Priest and Prophet, Fred A. Hines, Los Angeles; Imperial Oriental Guide, William S. Brown, Pittsburgh; Imperial Treasurer, Benjamin W. Rowell, Boston; Imperial Recorder, J. Frank Great, Fargo, N. D.; Imperial First Ceremonial Master, William I. Irwin, Wheeling, W. Va.; Imperial Marshal, Jacob T. Barron, Columbus, R. C.; Imperial Captain of the Guard, Frederick R. Smith, Rochester, N. Y.; Imperial Outer Guard, Dr. J. Putnam Stevens, Lexington, Me.

The thirty-third convocation was fixed for May 7, 1907, at Los Angeles.

awakened his husband, who was lying close to my side. The house had been entered from a rear door with the use of a pass key. The two men first entered a small kitchen in which were two trunks.

The trunks were pried open and all of the contents of value stolen.

The burglars, after leaving the kitchen, stepped directly into the bedroom occupied by Mr. and Mrs. Schect, which is located directly in the front of the house.

It is presumed, owing to the fact that nothing was disturbed in the bedroom, that the two men considered it unwise to disturb any of the effects of the couple for fear of awakening them.

One strange fact, the failure of the noise of the shots and the screams of Mrs. Schect to awaken Robert Harris, a roomer, who occupied a small bedroom, separated by a thin partition from that in which the murdered man slept.

Detectives immediately began a search for the murderers.

**BRYAN TO CALL
ON THE DOOM.**

AFTER VISIT TO RUSSIAN HOUSE
HE WILL GO TO NORWAY.

Expects to Witness Coronation of King Haakon at Christiania and is Due to Land in New York, August 29—Son Returns and Discusses Wonders of Long Trip.

(BY THE ASSOCIATED PRESS—A.M.)

ST. PETERSBURG, June 13.—William J. Bryan and Mrs. Bryan arrived here today from Berlin. They will remain here until Friday, when they leave for Stockholm and Christiania, the way to London, where Mr. Bryan will deliver an address on the Fourth of July.

He expects to witness the coronation of King Haakon at Christiania, and is due to arrive in New York August 29. Mr. Bryan came to St. Petersburg to get a glimpse of the Russian Parliament and to study at close range the epoch-making political struggle which is convulsing Russia. He has arranged to spend a few days in the city, and to confer with the leaders of the popular movement.

Today and Mrs. Bryan were the guests at luncheon at the Kleinschmidt Palace of Ambassador and Mrs. Meyer. Mr. Bryan expressed his full interest in the situation in Russia, and of Iowa for a meeting of the Governors of States to secure concerted action looking to a constitutional amendment providing for the election of Senators by the direct vote of the people.

BRYAN'S SON ARRIVES HOME.
(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, June 13.—William J. Bryan Jr. arrived today from Bremen on the steamer Kaiser Wilhelm II. After having accompanied his father on his travels.

"I was surprised," said young Bryan, "to find how well my father was known wherever we traveled."

"They know about him even in the wilds of India and in China. They knew, too, that he had never been present, but that he had been running."

ROCKEFELLER DISCUSSES BRYAN
(BY DIRECT WIRE TO THE TIMES.)

OTTAWA (Ont.) June 13.—[Exclusive Dispatch.] W. G. Rockefeller and party are fishing at Grand Metis, Quebec. Rockefeller says he fully believes that Bryan will be elected President. He thinks that he has broadened in his ideas and may be accepted by the party.

CADETS REMAIN AT ACADEMY.
ANNAPOLIS (Md.) June 13.—Midshipmen of the second class, who will, upon recommendation for admission, remain at the naval academy during the summer and be graduated in September next, include the following: C. O. Bassett, Washington; C. G. Davey, California; J. K. Hoover, Montana; J. R. Howell, California; G. W. Rockefeller, New York; R. A. Theobald, California.

OPEN DOOR FOR MANCHURIA.
LONDON, June 13.—The correspondence at Tokyo of the Daily Mail gives an interview with Viscount Maebashi, in which it is emphatically affirmed that it is Japan's intention to maintain the present status quo in Manchuria. The difficulties European merchants are experiencing are due to the confusion arising under a military administration.

SERBIAN CONSUL TO LONDON.
LONDON, June 13.—[Exclusive Dispatch.] Dr. M. G. Millichevich, at present in London, is expected to be appointed as the Serbian representative here.

REBEL CHIEFTAIN CAUGHT.
DUREAN, June 13.—[Exclusive Dispatch.] Chief Siganda and his eldest son have been captured and brought to camp. The rebels are now being counted and who were expected to assist in the revolt. The rebels are now being counted and who were expected to assist in the revolt.

ORANGEMEN IN SESSION.
PHILADELPHIA, June 13.—The thirty-first biennial convention of the Supreme Grand Lodge of the Loyal Orange Institution of America convened here yesterday. The delegates were welcomed by Mayor Weaver. The report of the secretary showed an increase in the number of members of the order in the United States to the number of 100,000. The delegates were welcomed by Mayor Weaver.

POPE RECEIVES GRADUATES.
ROME, June 13.—The Pope yesterday received in private audience thirteen graduates of the American College here previous to their leaving Rome for the United States to enter the priesthood. They were presented by Monsignor Kennedy, rector of the college.

FOUR ACCUSED OF BOODLING.
PHILADELPHIA, June 13.—Abraham L. English, former director of public safety of this city; P. H. Flay, a building inspector, and H. A. Batton, one of the firm of Henderson & Co., contractors, were placed on trial today, charged with conspiracy to defraud the city in connection with the construction of a municipal hospital.

EDITOR AND KING'S AIDE FIGHT.
LONDON, June 13.—[Exclusive Dispatch.] A duel with swords was fought this morning on the outskirts of Lisbon between Dr. Candido, proprietor and editor of the Epoca, and Gen. Barcho, honorary aide de camp to the King. One combatant was wounded in the forearm.

RUSSIAN NOBLEMAN KILLED.
KUTAIS, June 13.—Prince Mikhiloff, a marshal of the nobility and prominent in the Liberal movement,

RIGID MEAT LAW IS READY FOR CONGRESS.

**Committee Insures Product That
Shall Be Healthful, Clean, Whole-
some and Fit for Food—Government
to Stand Inspection Charges.**

(BY THE ASSOCIATED PRESS—P.M.)

WASHINGTON, June 13.—A meat inspection provision was completed by the House Committee on Agriculture today, and will be presented to the House probably tomorrow. It is declared by the committee that the provision will insure that American meats and meat products shall be healthful, clean and in every respect wholesome and fit for food.

The important features of the legislation are that it places the cost of the inspection on the government, and makes an annual appropriation of \$2,000,000 to pay the expenses. It requires a rigid post mortem and ante mortem inspection of all animals killed for food. It requires a government label and a certificate of purity to the carrier and to the Secretary of Agriculture for such products which enter foreign commerce.

INSPECTORS TO SUPERVISE.
To secure this label, the product must be handled in accordance with sanitary regulations to be prescribed by the Secretary of Agriculture, who is authorized to employ, without regard to the civil service law for the regular way, such inspectors as he deems fit to supervise the enforcement of his regulations.

It prohibits the use of preservatives or chemicals deleterious to health in the preparation of meat, foods, and leaves the determination of this question to the Secretary of Agriculture. The label on the product is to indicate the ingredients, but the date of manufacture is not required.

The sanitary requirements which the Secretary is to prescribe and enforce must insure complete sanitation of all buildings, whether slaughter-houses or canning establishments.

PENALTIES FOR INFRACTIONS.
Many penalties are provided for violations of these provisions. The common penalty is a fine of \$100, or imprisonment not to exceed 30 days, or both. A special penalty for bribery of inspectors, this being imprisonment for from one to three years and a fine of not less than \$1,000, the same punishment being provided for the acceptance of a bribe by an inspector.

Farmers and small butchers are exempted from the operation of the regulations. The violation of any of the regulations is made a misdemeanor punishable by a fine not to exceed \$1,000, or imprisonment not to exceed 30 days, or both. There is a special penalty for bribery of inspectors, this being imprisonment for from one to three years and a fine of not less than \$1,000, the same punishment being provided for the acceptance of a bribe by an inspector.

EXHAUSTIVE HEARING GIVEN.
These conclusions of the committee were reached after three days of exhaustive hearing, during which the committee in connection with the official reports regarding conditions in the packing-houses at Chicago and the statements of the packers and the date of the approval of this act at establishments where inspection has not been maintained or which have not been inspected under existing law shall be recorded in the minutes of this section under such rules and regulations as the Secretary of Agriculture may prescribe.

COST PROVIDED FOR.
The provision putting the cost of inspection on the government follows: "That there is permanently appropriated out of money in the treasury not otherwise appropriated the sum of \$2,000,000 for the expense of the inspection of cattle, sheep, swine and goats, and the meat and meat food products thereof, which enter into interstate or foreign commerce for each half year, and the Secretary of Agriculture shall, in his annual estimates made to Congress, submit a statement in detail, showing the number of persons employed in such inspections and the salaries or per diem paid to each, together with the contingent expenses of such inspectors and where they have been and are employed."

AMENDMENTS ADDED.
Elaborate provision is made for a thorough system of examination or inspection of animals to be slaughtered. This examination is to begin before they enter the slaughterhouse. All animals found to show symptoms of disease are to be slaughtered separately from all other cattle and their carcasses subjected to a careful examination and inspection.

M. Regnault, who was the second delegate of France at the Algerian conference, has been appointed minister to Morocco.

OWENS RIVER BILL IS AIDED.

Senate Acts Without Loss of Time on Measure.

Now Must Go to the House Where Delay Is Feared.

Appropriation for Stream Gauging in Danger.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, June 12.—[Exclusive Dispatch.] Senator Flint today secured the passage of his Owens River bill, which he introduced in the Senate yesterday. He lost no time in having the bill acted upon by the committee on lands.

After the bill was reported the following amendment was offered and accepted and the bill passed: "Provided, that in the event that the Secretary of the Interior shall abandon the project known as the Owens River project for the irrigation of lands in Inyo county, under an act of June 17, 1902, the city of Los Angeles is to pay the Secretary of the Interior for account of the reclamation fund established by said act, the amount expended for preliminary surveys, examinations and river measurements not exceeding \$10,000, and in consideration of said payment Los Angeles is to have the benefit of the use of the maps and field notes resulting from said surveys, examinations and river measurements, and preference right to require at any time within three years from the approval of the act all lands now reserved by the United States under the terms of said project, upon filing with the register and the recorder of the land office a map showing the lands desired to be acquired."

Representative McLaughlin will do all he can to get the bill through the House this session. He acknowledged that it would be difficult. McLaughlin will probably be opposed in his efforts by Representative Smith, whose position is well understood. Smith maintains that since the Owens River is in his district and the Owens River water ought not to be taken off a distance of several hundred miles. Smith is a member of the Public Lands Committee and he will be in a position to deliver hard knocks to the Flint-McLaughlin bill. Efforts will be made to place the bill in the House before adjournment. Senator Flint has a perfect right to be pleased in securing the passage of his bill within twenty-four hours after its introduction in the Senate and he will use all of his influence to secure the passage of the bill in the House before adjournment, but he does not think this will be possible.

There is some opposition to the bill and he thinks it would stand a better show to go over until the next session. If the bill does go over it will be taken up immediately after the convening of Congress in December.

STREAM GAUGING IN DANGER. Speaker Cannon today sustained a point of order made by Representative Crumpacker against the item of \$10,000 for continuing stream gauging for the benefit of the Owens River. This means that this work will have to stop.

The matter is of great importance to California, where the stream gauging for long periods has done much to aid in developing the water power resources of the State. Many stations have been maintained on various rivers where daily and more frequent readings are taken. The result is complete data for the State's most important streams. Protests against the point were made by members from everywhere but without avail. Representative McKinley made a short speech in praise of the geological survey and its work. He pointed out that if gauging stopped one year all data on hand would be valueless, for it is good only for long terms, so that averages can be worked out. Many industries will suffer, he declared, but his plea was of no avail.

SOLDIER'S DIGGING SCHEME. There is a genius in the Los Angeles Soldiers' Home, who can dig the Panama Canal in a year, according to his estimate. He sent a letter to Representative Sullivan of Massachusetts telling him about his invention. It is an immense machine with 300 derricks around it capable of excavating 200 cubic yards of material per second. This would enable the canal to be built in a year, he writes. He states that he also wrote the President, and offers to send Sullivan a working model of the invention for demonstration before the appropriation committee.

Mr. Sullivan referred the letter to Secretary Taft.

SURVEY STIRS WRATH.

(BY THE ASSOCIATED PRESS-P.M.) WASHINGTON, June 12.—Denunciation of the methods pursued by the United States Geological Survey with a view of securing larger appropriations for the bureau was heard today in the House.

A point of order was made against the item of \$200,000 for topographical surveys. After considerable discussion the chair overruled it, and then Mr. Small of North Carolina offered an amendment increasing the appropriation to \$250,000. This precipitated a discussion on the whole subject of the geological survey led by Mr. Tawney of Minnesota.

Mr. Tawney said that the United States Geological Survey is the most ambitious branch of the public service and that since the accession of the present director, C. D. Walcott, the appropriation has increased 200 per cent.

Mr. Tawney asserted that the topographical surveys now being made are for the benefit of street railway companies, water power companies and municipalities and charges that the Geological Survey is even now engaged in making topographical surveys of Minneapolis.

The Geological Survey was established to care for the Territories leaving the States to make surveys for themselves," said W. I. Smith of Iowa. "It gradually spread to the States and the director without any authority of law established a system of contributions, where, if a State would put in a specific sum he would out of the appropriations put in an equal amount."

Mr. Smith said this had resulted in the rich States, by thus paying, buying the national appropriations away from the poorer States, and as a result, Massachusetts, Connecticut and Rhode Island are surveyed, while the Western States, for which the survey was founded, have had little done.

The appropriations should not be increased until we have passed such

OWENS RIVER BILL IS AIDED.

Senate Acts Without Loss of Time on Measure.

Now Must Go to the House Where Delay Is Feared.

Appropriation for Stream Gauging in Danger.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, June 12.—[Exclusive Dispatch.] Senator Flint today secured the passage of his Owens River bill, which he introduced in the Senate yesterday. He lost no time in having the bill acted upon by the committee on lands.

After the bill was reported the following amendment was offered and accepted and the bill passed: "Provided, that in the event that the Secretary of the Interior shall abandon the project known as the Owens River project for the irrigation of lands in Inyo county, under an act of June 17, 1902, the city of Los Angeles is to pay the Secretary of the Interior for account of the reclamation fund established by said act, the amount expended for preliminary surveys, examinations and river measurements not exceeding \$10,000, and in consideration of said payment Los Angeles is to have the benefit of the use of the maps and field notes resulting from said surveys, examinations and river measurements, and preference right to require at any time within three years from the approval of the act all lands now reserved by the United States under the terms of said project, upon filing with the register and the recorder of the land office a map showing the lands desired to be acquired."

Representative McLaughlin will do all he can to get the bill through the House this session. He acknowledged that it would be difficult. McLaughlin will probably be opposed in his efforts by Representative Smith, whose position is well understood. Smith maintains that since the Owens River is in his district and the Owens River water ought not to be taken off a distance of several hundred miles. Smith is a member of the Public Lands Committee and he will be in a position to deliver hard knocks to the Flint-McLaughlin bill. Efforts will be made to place the bill in the House before adjournment. Senator Flint has a perfect right to be pleased in securing the passage of his bill within twenty-four hours after its introduction in the Senate and he will use all of his influence to secure the passage of the bill in the House before adjournment, but he does not think this will be possible.

There is some opposition to the bill and he thinks it would stand a better show to go over until the next session. If the bill does go over it will be taken up immediately after the convening of Congress in December.

STREAM GAUGING IN DANGER. Speaker Cannon today sustained a point of order made by Representative Crumpacker against the item of \$10,000 for continuing stream gauging for the benefit of the Owens River. This means that this work will have to stop.

The matter is of great importance to California, where the stream gauging for long periods has done much to aid in developing the water power resources of the State. Many stations have been maintained on various rivers where daily and more frequent readings are taken. The result is complete data for the State's most important streams. Protests against the point were made by members from everywhere but without avail. Representative McKinley made a short speech in praise of the geological survey and its work. He pointed out that if gauging stopped one year all data on hand would be valueless, for it is good only for long terms, so that averages can be worked out. Many industries will suffer, he declared, but his plea was of no avail.

SOLDIER'S DIGGING SCHEME. There is a genius in the Los Angeles Soldiers' Home, who can dig the Panama Canal in a year, according to his estimate. He sent a letter to Representative Sullivan of Massachusetts telling him about his invention. It is an immense machine with 300 derricks around it capable of excavating 200 cubic yards of material per second. This would enable the canal to be built in a year, he writes. He states that he also wrote the President, and offers to send Sullivan a working model of the invention for demonstration before the appropriation committee.

Mr. Sullivan referred the letter to Secretary Taft.

SURVEY STIRS WRATH.

(BY THE ASSOCIATED PRESS-P.M.) WASHINGTON, June 12.—Denunciation of the methods pursued by the United States Geological Survey with a view of securing larger appropriations for the bureau was heard today in the House.

A point of order was made against the item of \$200,000 for topographical surveys. After considerable discussion the chair overruled it, and then Mr. Small of North Carolina offered an amendment increasing the appropriation to \$250,000. This precipitated a discussion on the whole subject of the geological survey led by Mr. Tawney of Minnesota.

Mr. Tawney said that the United States Geological Survey is the most ambitious branch of the public service and that since the accession of the present director, C. D. Walcott, the appropriation has increased 200 per cent.

Mr. Tawney asserted that the topographical surveys now being made are for the benefit of street railway companies, water power companies and municipalities and charges that the Geological Survey is even now engaged in making topographical surveys of Minneapolis.

The Geological Survey was established to care for the Territories leaving the States to make surveys for themselves," said W. I. Smith of Iowa. "It gradually spread to the States and the director without any authority of law established a system of contributions, where, if a State would put in a specific sum he would out of the appropriations put in an equal amount."

Mr. Smith said this had resulted in the rich States, by thus paying, buying the national appropriations away from the poorer States, and as a result, Massachusetts, Connecticut and Rhode Island are surveyed, while the Western States, for which the survey was founded, have had little done.

The appropriations should not be increased until we have passed such

FINANCE PLAN IN DISFAVOR.

Speaker Cannon Disapproves of Frisco Loan.

Committee Interviews Members of House and Receives Little Encouragement—Senator Flint Suggests That Company Be Organized in California to Loan \$10,000,000.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, June 12.—[Exclusive Dispatch.] The San Francisco relief committee interviewed members of Congress today regarding the plans to secure a loan of \$10,000,000 from the government.

Judge Morrow had an interview with Speaker Cannon in which the Speaker expressed strong disapproval of the plan. Several members of the committee on appropriations declared that it was useless for the Californians to press the matter. It has been arranged, however, that a hearing will be held tomorrow morning when the committee will be informed of the details of the project. A meeting of the committee and the California relief committee will be held at New Willard tonight. The situation was canvassed and while prospects of securing a loan were dim, the committee was decided to perfect the proposition in detail and present it to the President.

WHEELER AS SPOKESMAN. President Wheeler of the University of California, who is expected here tomorrow, will be asked to act as spokesman for the committee and to use his influence with the President. Some members of Congress are of the opinion that if the President would send in a strong message approving the proposed loan and the Senate would act favorably, there might be hope of getting it through the House, notwithstanding opposition already developed. The obstacle to this plan lies in the fact that the President wishes favorable assurances from Congress before sending a message.

He offered to subscribe and secure other subscriptions in Southern California and expressed the opinion that several millions might be raised which would serve as the nucleus for securing financial assistance in New York.

POLITICAL. **SHAW'S VISIT CAUSES ROW.** **PRESIDENT DENIES HAVING ANY HAND IN MATTER.**

Secretary Loeb Wires Secretary of Iowa Committee That Shaw Speaks in Davenport Against Cummins "On His Own Responsibility." Governor's Friends Up in Arms.

(BY THE ASSOCIATED PRESS-P.M.) WASHINGTON, June 12.—President Roosevelt absolutely disclaims any participation or interference in Iowa political affairs and says that Secretary Shaw's visit to his home State at Davenport was made "on his own responsibility."

The disclaimer was called out by published statements that Secretary Shaw would represent the President in a speech he is to make at Davenport in opposition to Gov. Cummins. By direction of the President the following telegraphic correspondence was made public today at the White House:

Telegram received. Secretary Shaw's visit to Davenport is, of course, on his own responsibility. The President has sent no message by which he would interfere in Iowa political matters and will not interfere in Iowa political matters or in that of any other State.

"WILLIAM LOEB, JR., secretary." **SHAW CANCELS OTHER DATES.** **DAVENPORT, June 12.**—A telegram was received here yesterday by W. H. Anthony, secretary of the Lincoln Club, from Secretary of the Treasury Shaw, stating that, after a conference with President Roosevelt, he had canceled other engagements in Iowa and would be with that club on Wednesday.

Referring to this, Charles G. Glick, secretary of the Republican Central Committee, asked the President by wire if he was taking sides in the political fight in Iowa.

COLE HEADS TICKET. **REPUBLICANS IN MINNESOTA.** **DULUTH, June 12.**—The Minnesota Republican State Convention today nominated the following ticket: Governor—A. L. Cole, Walker, Lieutenant-Governor—A. E. Eberhart, Mankato. Treasurer—C. C. Dinehart, Slayton. Attorney-General—E. T. Young, Appleton. Secretary of State—Julius Schmalz, Redwood Falls. G. Iverson, Rushford. Clerk of Supreme Court—C. A. Pidgeon, Buffalo. Railroad Commissioner—C. P. Staples, West St. Paul.

To all appearances, G. F. Jacobson had swept the State for the gubernatorial nomination. He had carried the record as a member of the Minnesota Legislature during its stormiest days when he earned a reputation for being the most radical reform legislator in the State.

This morning the six other candidates got together in a determined effort to withstand a Jacobson stampede and on the fourth ballot, after Jacobson had held a good lead and made considerable headway, the convention nominated A. L. Cole of Walker, a prominent leader in the last session of the House.

At midnight last night he decided to withdraw from the fight but the other candidates induced him to stay in the race. The convention unanimously adopted the platform which was adopted without debate gives an enthusiastic endorsement of the national Republican administration, approves the message and acts of the President, especially commending him for his stand in the enforcement of laws against trusts, monopolies and combinations in restraint of trade, the Panama canal, protection to American labor and industries, the gold standard, legislation against the adulteration of food, election of United States Senators by direct vote, a two-cent railroad fare, abolition of free passes and a readjustment of freight rates.

STARTS JEROME CAMPAIGN.

Mayor McClellan of New York Upholds the District Attorney at Union College.

(BY DIRECT WIRE TO THE TIMES.) SCHENECTADY (N. Y.) June 12.—[Exclusive Dispatch.] Mayor George J. McClellan of New York delivered the honorary chancellor's oration at the one hundred and tenth commencement of Union College today, when forty-six graduates received their diplomas. Mayor McClellan spoke on "The Profession of Politics" and by many present, his address, in which he said the people of New York were expecting the impossible of Dist. Atty. Jerome, was regarded as the opening of Jerome's campaign for the Democratic nomination for Governor.

The Mayor warmly endorsed the New York District Attorney while vigorously denouncing graft and grafters in politics.

SHADY METHODS ARE EXPOSED. **INTERSTATE COMMISSION PROBES COAL SCANDAL.** **Independent Coal Mining Companies Are Provided by Pennsylvania Road With Private Cars, According to Testimony of Chief Clerk for Pressed Steel Car Company.**

(BY THE ASSOCIATED PRESS-P.M.) PHILADELPHIA, June 12.—Orders for private cars to be used by independent coal mining companies were placed by the Pennsylvania Railroad Company and paid for by that corporation which afterward had a settlement with the coal companies.

The fact was established at today's session of the Interstate Commerce Commission through the testimony of E. E. Switz, chief clerk of the Pennsylvania division of the car company, and by information volunteered by Francis I. Gowan, counsel for the railroad.

Frederick Macquay, treasurer of the Berwind-White Coal Company, was recalled, but professed almost complete ignorance of the business transactions of the company. His attitude, coupled with the interruptions of Charles Heebner, counsel for the coal company, elicited a rebuke from Commissioner Cockrell, who with a shrug of his shoulders declared it was useless to interrogate the witness.

HAD TO PAY A CLEVER. **W. A. Guhrke, a mine operator, told the commission that when his representative applied at the office of General Manager A. Atterbury of the Pennsylvania Railroad for an order for four private cars, he was told to pay to a clerk named Hur or Hoff in Mr. Atterbury's office an allowance of 3 cents a ton. He did not say who imposed the charge.**

He reported the matter to Vice-President Pugh and he secured the order without paying the allowance. Mr. Pugh at first discredited his story, the witness said.

E. R. Whitney, assistant counsel for the commission, filed a statement furnished by W. H. Smith, general manager of the New York Central Railroad, concerning the number of railroads in the Pennsylvania division in 1905, together with those denied and the reasons for the company's refusal to place them.

RANCHER SLAYS MAD VISITOR. **UNKNOWN FROM LOS ANGELES CLAIMED FLETCHER RANCH.** **Talks to Tress and Called One of Them "Bill." His Partner, and Is Shot Dead by Alexander Lewis While Making Attack on Party Encamped Near Albuquerque.**

(BY DIRECT WIRE TO THE TIMES.) ALBUQUERQUE (N. M.) June 12.—[Exclusive Dispatch.] Alexander Lewis of Mayfield, Colo., who arrived here a week ago and who has been camping near the Fletcher ranch, four miles south of the city, last night shot and killed an unidentified man, who is supposed to have been insane.

According to the story of Fletcher, the owner of the ranch and other witnesses, the man appeared at the ranch yesterday afternoon, saying he owed the place \$100. He talked to the ranch owner, called him "Bill," and then he and his partner, who he designated as "Bill," the man stated to Lewis, who endeavored to compel him to leave, after the fellow had attacked his camp, that officers were after him, having run him out of Los Angeles, where a reward was offered for his capture. Officers were telephoned for from this city, but they mistook the place. In the meantime Fletcher, Lewis and others were guarding the place and the man with shotguns.

Lewis stated that they decided to fire into the ground to frighten the man. The next time the lunatic rushed Lewis the latter fired.

THIS FLAG DAY. Every house should show the flag today, every vantage point the red, white and blue. It is Flag Day, the anniversary of the day the United States adopted our national emblem. More and more this day is being observed, till by custom it will eventually become one of the great holidays. So hang out the colors, as big a flag as you have, bunting beside it if you're so inclined. No home should be without a flag—put it out where people can see it.

HARD FIGHTING IS EXPECTED. **(BY THE ASSOCIATED PRESS-P.M.) LONDON, June 12.**—The Morning Post correspondent at Lagos reports a political uprising in Southern Nigeria. Heavy fighting is expected.

A Rare Opportunity For the Man Who Wants **HOME BUILDERS HAPPY**

Important to the Man Who Would Own a Home.

In the recent extension of the East First street car line, one of the most slightly and desirable sections of Los Angeles has been made accessible. This district has been held in acreage until now, and the prices that have been put upon the lots and on the easy terms place them easily in the reach of the average California home builder. This whole section east of Boyle Heights is really the most beautiful in scenic advantage and high altitude of anything about the city. The man of moderate means who is looking for an ideal situation will find here what he is looking for. As to price, if he waits six to twelve months he will have to pay two or three times as much as at present. Street railway service develops a district quickly, and this section is no exception. If you have had any prejudice against the section on account of the false opinion of Boyle Heights, just go up to the heights at the end of the East First street car line. Stand on some of the many choice corners of Palma Heights and look down on the city—take a stroll over Home Acres Tract, see the soil, feel the air, enjoy the beauty; you'll buy as sure as fate. Prices range from \$500 to \$750 on Palma Heights, and \$125 to \$500 on Home Acres, according to size of tract, and only 10 per cent. down with \$10 down are the terms—within the reach of every one.

CORNISH-BRALY CO. Suite 300, Union Trust (Brady) Bldg. Can tell you all about this property. Or, go out to their Tract Office, end of East First street car line, and have R. A. Brown or H. L. Hopkins show you over. Building restrictions are moderate. With the liberal terms you can easily own a lot out there on the money you are now paying for rent.

NIGHTLY DRILL BEATS POLICE.

Military Company Better Than Juvenile Courts.

Youngsters Learn Obedience to Flam of Drum.

Dr. Scott's Idea Salvation of Fremont Avenue.

A lot of boys on North Fremont avenue are butting their self-respect as well as their shirts inside their khaki uniforms every night at 7 o'clock, and learning the lessons of control and obedience to the flam of a drum.

Ordered by Carleton B. Scott as captain and with lieutenants and "non-coms" from their own number, they drill every night up and down the streets until it is time for curfew.

They aren't playing at it, either. They swing up the street to the left, to the right, and the lieutenants check the laggards who cannot escape their sharp eyes. It isn't "Get in step there, you Patsy," either. It's "Step, Jones!"

A week or so ago the officers were afraid of their own voices, and said their commands in a tone that wouldn't frighten a cat over the fence. But now the "Col-lumna R-r-right-Khaki" rolls out along the street as if an old war-dog was stepping at the head of the company. They're catching on quick, those youngsters. They are learning other things besides their drill, too.

Not long since, the neighborhood had a problem to face. Sixty or seventy boys were making every night hideous. They had so much superfluous energy that they couldn't work it all off by daylight, and at night they consumed with extra fervor the stunts that had occurred to them during the day, but which they hadn't had time to do then. Some of the boys had drawn the especial attention of the police; for they were known to the juvenile court. Whittier loomed large as the probable destination of a select crowd.

GENESIS OF THE COMPANY. After an especially stormy night Mrs. A. J. Scott, the wife of Dr. Scott, made a suggestion. "Why not organize the boys into a military company, and let them have something to do?" she said. And so it was done. Carleton B. Scott, Dr. Scott's eldest son, had just come back from San Francisco after service with the Seventh Regiment. He engineered the scheme, with his father to help. Other residents of the neighborhood aided, and in a few nights the company was drilling on the street.

Every night at 7 o'clock the boys fall in. Then for nearly two hours they drill, sometimes under the eyes of their captain, and part of the time under their lieutenants and "non-coms," selected from their own number. Up and down the street they swing, in proper silence, every fellow of them working hard. When the command "Rest!" comes, a babel breaks out, but the long drawn "Shun!" brings them up silent and at attention. After the marching drill they come back to the street in front of Dr. Scott's home, where Captain Scott again takes command and instructs them a little more in the school of the soldier. Then comes roll call by their first sergeant.

Last night he proudly reported forty-eight present, out of the fifty-eight on the rolls. Most of them were in khaki uniform, and the rest are clamoring to get fitted.

SALUTING THE FLAG. Before dismissal, the company salutes the flag, which is carried by the color guard all during the drill. The arms come up to present with a rattle, and from the left flank come the colors and the guard. Across the front they march in rigid line, the street in complete silence, and then up the sidewalk to the porch of Dr. Scott's home, where they face about. The company comes back to order arms, the captain announces the orders for the next day, and then—"Dismissed!"

There is a whirlpool of voices, boys whooping down the street to their homes, whistles, calls—but the color guard stands rigid, and not a boy goes east that way but salutes the colors again. Then the guard is dismissed.

also, the colors housed by the sergeant and in ten minutes there isn't a sound in the street. The noisiest thing is a piano two blocks away.

Three weeks ago people couldn't sleep before midnight. Now curfew enforces itself naturally. The boys all come to drill in their khaki, and anyone on the street in uniform after 9:30 o'clock is dropped from the company.

BUT SOME DON'T LIKE IT. All this has not been done without some opposition, however. Nearly all the residents of the neighborhood are in hearty sympathy with the boys, but a few have thrown what obstacles they could in the way of the company. Yesterday a petition was sent to the District Attorney, asking that the nightly drilling be prohibited. The District Attorney paid little attention to the request, beyond telling Dr. Scott that he was in the right and for him to go ahead. It is noteworthy that a large part of the objectors to the drilling and the salute of the flag cannot lay claim to American birth.

But the rest of the residents help. Dr. Scott, the father of the company, has put up the finest pair of roller skates he can find for the winner in a competitive drill this month, and next month the best soldier will get a watch. Then the drill is over and some Sunday this month the whole company will spend a day at the beach as the guests of Dr. Scott, and other good things are in prospect. The boys are doing their part. Last Sunday they went on a practice march to Elysian Park, set up camp, stationed guards, spent the afternoon, and then marched back—four miles on a hot day. And the little fellow of all, the mascot, kept along with the rest. He's about knee-high to the right guard, but he trudges along side of him as cheerful and happy as can be.

Lawn Mower \$2.98

The Maier Packing Co.

(Whose present plant is on the Mission Road, outside the city)

INVITES all persons interested to visit and inspect its method of killing and curing meats.

Facilities for reaching the plant will be furnished on application at the office of the company, Nos. 149-153 North Spring Street. All officials and newspaper representatives especially invited. The new plant now in process of erection at the foot of Lyon Street in the city, will be the most modern and best equipped on the coast. Visit it and see a reinforced concrete building in process of erection.

IT PAYS

to buy Mennen's Borated Talcum because of its perfection and purity. But it does not pay to sell Mennen's Powder nearly as well, as it pays to sell an imperfect and impure substitute which, costing about half the cost of Mennen's, yields the dealer double profit. The "just as good" with which some dealers try to palm off a substitute is true any way. If it's only "just as good" for the dealer why push the sale. If it's only "just as good" for the buyer why risk an unknown preparation for Mennen's. There's nothing just as good as Mennen's Borated Powder, and the dealer who says there is, risks his customer's skin and safety to make an extra profit on a sale. Have you tried Mennen's Violet Borated Talcum Toilet Powder? Ladies' toilet to violet perfume will find Mennen's Violet Powder fragrant with the odor of fresh plucked Parma Violets. For sale everywhere for 15 cents, or mailed postpaid on receipt of price, by GERHARD MENNEN CO., Newark, N. J.

BIG DAMAGE IN MONTANA.

Terrific Mail and Wind Storm Worst in
History of Havre Weather
Bureau.[BY THE ASSOCIATED PRESS—P.M.]
HELENA, June 13.—A special from
Havre says the path of yesterday's
storm's hail and wind storm was
about four miles wide and extended
at least fifteen miles, moving from
the southwest to the northwest.The damage to property was not so
extensive as at first reported, although
by all odds the worst wind storm in
the history of the Havre Weather
Bureau.Observer Lings says the wind for
about ten minutes attained a velocity
of seventy-two miles an hour. The
Havre Commercial Company's store
building, a concrete affair, was partially
blown down, entailing a loss of
several thousand dollars. About \$3000
worth of window panes were destroyed
in Havre. The residence of John W.
Clark, two miles east of town, was
blown down.A portion of the commissary building
at Fort Assiniboine was demolished,
and the shooting gallery and
gymnasium blown down, chimneys
swept away and much glass broken.The total damage to the military
post is conservatively estimated at
\$10,000.The damage to property was not so
extensive as at first reported, although
by all odds the worst wind storm in
the history of the Havre Weather
Bureau.The damage to property was not so

Which for You?You see men every day who appear hewn
from wood.

They are all square corners and angles.

It isn't the fault of the man.

Put him in a "Ready-and-Right" suit and

see the difference—

You'll see grace and beauty in every line—

the shoulders curve, waist is defined, hips a trifle wide, and

trousers taper effectively.

(We get these square-cornered men every day—they've discovered the dif-

ference themselves and want the "R. & R." remedy.)

"Bottle" shoulders—"Peg" trousers—summer blues and greys.

ATHENS

Back from the
sea on an eleva-
tion, like the
Grecian Athens.
And to be made
representative of
all that beauty
and refinement
for which the
ancient Athens
stands.Nine miles of one hundred
foot Boulevards.
Parkways in the center
of each.Elevation 300 feet. Cool
sea breeze every day
in summer. Warm and
frostless in winter.Electric Lights
Telephones
Frequent car service
Pure waterLarge Lots
\$350 and Up
One Fourth Cash
Terms to SuitTwo car lines now pass directly through
Athens. A third fast line now building,
guaranteeing 20 minute service to Sixth
and Main.No place for a home, within striking distance of
Los Angeles, that equals Athens On The Hill—in location,
in improvements, in transportation facilities—in all that makes
property desirable for residence purposes. Situated between growing Los Angeles and San Pedro, the har-
bor city—within a few minutes ride of either, its investment opportunities are apparent. The property
cannot fail to increase in value tremendously.

A Residence City of Parks and Boulevards

South of Los Angeles, on the only elevation between
the city and San Pedro, Athens on the Hill is rapidly
becoming the most perfect suburban city of South-
ern California. Thousands of dollars are being
spent in improvements. Boulevards are being grad-
ed. Cement curbs and walks now going in. Through-
out the work the splendid conception of its origina-
tors, to make the new Athens like the Athens of old,
is apparent—every advantage is taken of natural
contours in this sweeping hill district to make it one
beautiful, harmonious whole.Every feature of the Athens plan looks toward a
model residence city. Lots large, averaging one-third of an acre in size. Business district confined
to one section, and to be made a thing of beauty.
Abundance of pure artesian water already developed.
City laid out in curves and squares, as the slope of
the land requires, ensuring a magnificent outlook
from every home. Glorious views from every point
in Athens—to seaward and Catalina; north, over-
looking the city and on to the mountains; east to
the San Jacinto mountains, 125 miles away.Here is the place of all others to locate your
home, near the city but away from its dust and heat
—in this carefully restricted, slightly city of high
class homes. See it and judge for yourself.Just One Way to Get an Idea of Athens—See It Yourself.
Free Fares.Take Redondo cars, Gardena branch, at Second and Spring—or San Pedro
cars at Third and Hill Sts. Both pass directly through Athens. Free tick-
ets, maps and full information at any of the offices named. Go down today.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Union League Dinner.

There are assurances of a large attendance at the Union League's dinner tonight. The program is most taking.

Pupils' Exhibit.

The Hoover-street school will hold a reception tomorrow, from 2 to 3 p. m., when the display of pupils' work will be made in the school building.

Lawn Social.

A social will be given Friday evening on the lawn of the Occidental Heights Baptist Church, East First and Hick street. A short program will be rendered, and a good time is promised to all who attend.

King's Daughters.

The King's Daughters will hold a meeting in the First Congregational Church at 2:30 o'clock this afternoon, for the reorganization of the work in Southern California and the formation of new circles. Mrs. A. G. Fessenden, State secretary, will be in charge.

To Exhibit Their Work.

The teachers and students of the Olive street school will be the hosts today at a public reception to their relatives and friends. Flag Day exercises will be held this forenoon, and from 2 to 4 o'clock in the afternoon there will be an exhibition of the work done by the pupils during the school year. The Superintendent of Schools and other public officials will attend.

Spanish Veterans' Night.

Roosevelt Camp No. 5, United Spanish War Veterans, will entertain this evening with a social in honor of the birthday of the flag, at Odd Fellows' Hall, No. 226 1/2 South Main street. There will be patriotic speeches by prominent men, recitations and vocal and instrumental music. All ex-soldiers of the Spanish-American War and their friends are cordially invited. Admission free.

Party for Fire Commissioners.

The directors of the old Tammy Club, since deceased and resurrected by the Democratic Club of Los Angeles, will give a box theater party at the Burbank tomorrow evening for "Topsy" Schwamm, the new fire commissioner. Afterward a complimentary dinner will be served at the Bohemian Cafe by the proprietor, S. P. Clark.

Mrs. Ochoa Missing.

Mrs. Margarita Ochoa, aged 79 years, was reported missing to the police department last night. She left her home, No. 221, East 12th street, yesterday morning about 6:30 o'clock, intending to visit at the home of friends at No. 42 Lafayette street. She failed to appear at the latter place, and a search throughout the neighborhood of her home failed to disclose her. It is thought the woman became confused and lost, or met with an accident.

Psychology and Language.

Prof. Howard Swan, who is to be one of the instructors in language at the summer session of the University of California, gave a delightful and instructive talk yesterday morning to the students of the Normal School on the subject of teaching language. Prof. Swan gave a very interesting demonstration of his method of teaching the French language, in which he showed his skill of applying the psychological principle to the teaching of a foreign language.

Sailor Pat's Gossamer Bee.

Pat McCullough, an old sailor taking a vacation in the city, did a most unusual thing yesterday. He got drunk; he "fessed up" when he was wandering around like a lame camel in the corner of the Receiving Hospital. He had come to sleep at his place in his mouth, at a lodging-house on East Third street, and when he woke up as if a flea was biting him, the whole seat of his breeches was burned, and it was too uncomfortable to sit on the cooling position that were applied by the surgeon to soothe the burn.

Prevention of Cruelty.

The directors of the Los Angeles Society for the Prevention of Cruelty to Animals met yesterday. The efficient work of the society is shown by the fact that during the past month nine arrests were made, and of the persons arrested, seven were convicted, the other two still having their cases pending. The society received eighty-eight complaints, and investigated 134 cases during the month, and as a result of the investigations, 265 animals were examined. Of these forty-seven were treated and forty-four destroyed, while seventy-five were suspended from labor for varying periods. Warnings and reprimands, the precursors of arrest, were issued in thirty-nine cases. One offender, arrested the previous month, was tried and convicted during May.

Reception for Chinese Women.

Yesterday afternoon a reception was held in the Congregational Chinese Mission on Commercial street to welcome to Los Angeles Mrs. Lee Hong, wife of the Chinese mission worker who has come from San Francisco to take up work. Mrs. Lee Hong will work in connection with Mrs. E. M. Flinday among the Chinese women. The reception yesterday was attended by a large number of the Christian Chinese women and their children. It was the first public affair of the kind ever held here, and was so much enjoyed by the Chinese women that they say it will not be the last. Addresses of welcome to Mrs. Lee Hong were made by Misses Mar Yuen, Len Young, Chung Wong, Mon Sing and Chan Kiu Sing in Chinese, to which the guests in honor responded. Mrs. Lau Yui, who will soon go as a missionary to her own people in China, also spoke, and gospel songs were interpreted. American loaves and cakes were served.

BREVITIES.

Fiesta Souvenir Book. Thirty full page illustrations. All the magnificent night electrical fairs and the handsome set of the floral parade features are published in this Fiesta Souvenir book, printed on the best paper. Ready for delivery at The Times Book Office, 110 North Broadway. On sale at all bookstores and news stands. Price 35 cents.

Today is the last day of our great selling-out sale. If there is anything left in our stock we would rather sell it to you below cost than pack it away. Diamonds, watches, jewelry and silverware for just today, way below cost. John Von Breiten, 350 South Broadway.

Why pay \$2.00 to \$5.00 for eye glasses and spectacles when we sell the best A-1 crystal reading lens in a 10-year gold-rimmed frame for \$1.00, fitted to your eyes without extra charge by graduate State registered optometrist. Satisfaction guaranteed. Clark's, 351 South Spring.

Woman's greatest opportunity to make her own garments perfect in every respect under our instruction. Model-fitting patterns free to pupils. Rosenblee's Alter Tailoring Company, 1400 W. Seventh street.

Genuine oil and water color paintings almost at chrome prices at our retiring-from-business sale. The McClellan-Kanet Co., 111 Winston st., below Main, bet. Fourth and Fifth sts. Oakland office, Los Angeles 7467, 873 Broadway, Telephone Oakland 7467.

Arthur L. Fish representative. Advertisements and subscriptions received. Copies of The Times on file. Furs: D. Bonoff furrier, 212 S. W. Way. Osteopath—Dr. Locke—Grant Bldg.

There are undelivered telegrams at the Postal Telegraph Company for Dr. C. R. Ray, Brewster Holman, Hooker-Field Company, Vitrano Giovannone and for for Postman.

MEDICOS AT BANQUET.

Graduates of University College of Medicine Are Entertained by the Faculty.

One hundred and ten friends and members of the graduating class of '36 of the College of Medicine of the University of Southern California attended the annual banquet at Levy's, given last night by the faculty to the graduating class. The big banquet hall was tastefully decorated with orange and blue, the classic colors. The tables were arranged in the form of a "U." Following an excellent menu, throughout which there was a continuous flow of badinage, there were a half dozen of excellent addresses. Dr. George L. Cole acted as toastmaster, and Dr. Walter Lindley supervised the entire proceedings as president of the evening.

Among the speakers were Miss Isabel Crowell, Dr. W. W. Richardson, Dr. George W. Lasher, Dr. F. M. Pottinger and Dist. Atty. J. D. Fredericks. The subjects of the addresses ran anywhere from "A Doctor's Point of View," by Miss Crowell, to "The Doctor as Viewed by a Lawyer," by Capt. Fredericks.

In his address, "The Doctor as Viewed by the Lawyer," Capt. Fredericks said it was natural that a man whose business it was to get people into trouble should be called on to talk to those whose it is to cure trouble. He asked a little of the expert testimony on the ground that a lawyer was handicapped because he was trained to tell the truth and a doctor because he is in the habit of concealing the truth from his patient.

In more serious lines Capt. Fredericks said the criminal is a medical problem—that the morals of a criminal were generally a composite of his mental and physical conditions, and that the physician should be required to get the final answer. He expected some time to see as a feature of every penitentiary a hospital, where doctors would diagnose the cases of criminals and offer as a remedy a course of treatment or sometimes an operation.

In this connection he advocated in the case of ultra-criminal classes, which might be proved incurable, perpetual imprisonment, to protect society not only from the criminals themselves, but also from reproduction by them of other criminals. In conclusion he suggested to the young doctors that they had the opportunity to gratify what should be their highest ambition—the solution of the criminal problem, for although they might not see what he is convinced is the final result—the medical answer—they had the chance to help in the process.

ROQUE CHAMPS BEGIN PLAY.

The Club Represented in Four-Day Tournament.

Game Combines All Difficult Shots in Billiards.

Present Games May Develop Challenger for Medal.

The fourteenth annual tournament of the Southern California Roque Association is on foot at the Evans Hotel, on Grand and Hill streets, and the event games have been in progress since yesterday.

The participants in the tournament are: L. C. Wood, who is the champion of the world; J. H. Wood, who is the champion of the United States; and J. H. Wood, who is the champion of the world.

The game is played on a billiard table, and the object is to pocket the balls in a certain order. The game is very difficult, and the players must have a high degree of skill and accuracy.

The tournament is expected to last for four days, and the winner will receive a medal. The games are being played in the evening, and the public is invited to watch.

The tournament is being held at the Evans Hotel, and the public is invited to watch the games. The games are being played in the evening, and the public is invited to watch.

A SWIMMER THIS WOMAN.

Twenty-three and a Half Miles in Three Hours and Eleven Minutes.

(BY DIRECT WIRE TO THE TIMES.) VIENNA, June 13.—(Exclusive Dispatch.) Miss Keller has broken all records in a trial swim in the Danube.

She accomplished a distance of thirty-eight kilometers (about 24 miles) in 3:11:00. Miss Kellerman is an Australian and bids fair to deserve the title of champion long distance woman swimmer of the world. She is now 30 years old, her height is 5 feet 7 inches, and her weight 145 pounds. Her muscular development shows great strength.

Miss Kellerman has been swimming from childhood. At 15 she won the amateur mile in Australia, and after winning all other amateur championships there became a professional.

She has been swimming from childhood. At 15 she won the amateur mile in Australia, and after winning all other amateur championships there became a professional.

SENSATIONAL WAS PLAYING.

COLLEGE PITCHER PROVING A MARVEL.

Fresno Stabater Blanks Portland for Eight Innings—Portland Scored in But One—Fourteen Innings Required to Settle a Three-Four Game.

(BY THE ASSOCIATED PRESS.—P.M.) PORTLAND, (Or.) June 13.—After a sensational contest that lasted for fourteen innings, Fresno took the game from Portland today. The game from the start was a brilliant one. McGreggor, the boy pitcher from St. Mary's College, blanking the home team for eight innings, while Garvin held the visitors down to three runs. In the ninth an error by Casey and three singles enabled Portland to tie the score. Neither side had a chance until the twelfth inning, when the locals, with three men on bases, were retired by Eagan's surprising catch of a terrific drive by Sweeney. Portland held down the visitors, but a two-base hit by Hogan, an error by McGreggor, and an inescapable fumble by Moore in the fourteenth settled the issue in favor of the visitors. The score: Portland, 5; hits, 9; errors, 1. Fresno, 4; hits, 12; errors, 1. Batteries—Garvin, Callie and McLean; McGreggor and Hogan. Umpire—Kneib.

FANNED SIXTEEN. ALLOWED BUT FIVE HITS. (BY THE ASSOCIATED PRESS.—P.M.) SEATTLE, June 13.—Visitors struck out sixteen men and allowed only five hits, two of which were bunts that should have been nulled. McClelland's wild throw gave Seattle a lead in the first inning, which was never overcome. Score: Seattle, 5; hits, 11; errors, 1. Los Angeles, 2; hits, 5; errors, 2. Batteries—Vickers and Blankenship; Steitz and Sage. Umpire—Perrine.

TEN TWO-BAGGERS. EVERYBODY GOT A HIT. (BY THE ASSOCIATED PRESS.—P.M.) OAKLAND, June 13.—Oakland had scored seven runs up to the fifth inning today against three for San Francisco. The latter team rolled up six runs in the sixth inning and then won easily by a score of 10 to 7. Ten two-baggers were made during the game. Score: San Francisco, 10; hits, 12; errors, 1. Oakland, 7; hits, 11; errors, 2. Batteries—Hitt and Wilson; Cales and Hackett. Umpire—McDonald.

NATIONAL LEAGUE. M'FARLAND A PUZZLE. (BY THE ASSOCIATED PRESS.—P.M.) PHILADELPHIA, June 13.—Philadelphia was undecided whether to hit M'Farland today and Pittsburgh scored an easy shut out. Score: Pittsburgh, 5; hits, 14; errors, 0. Philadelphia, 0; hits, 6; errors, 2. Batteries—M'Farland and Gibson; Duglesby, McCloskey and Donovan. Umpire—Emmille.

PFEIFFER FANNED THEM. (BY THE ASSOCIATED PRESS.—P.M.) BOSTON, June 13.—The Boston men gave almost perfect support to Pfeiffer today and won from St. Louis. Pfeiffer struck out ten men and allowed six hits. Score: Boston, 2; hits, 6; errors, 1. St. Louis, 1; hits, 6; errors, 1. Batteries—Pfeiffer and O'Neill; Egan and Raab. Umpire—Carpenter.

GREAT PITCHER'S BATTLE. (BY THE ASSOCIATED PRESS.—P.M.) ST. LOUIS, June 13.—Glade won a deserved victory in the tenth inning of a pitcher's battle today, defeating Boston. Glade allowed only three hits. Score: St. Louis, 1; hits, 3; errors, 1. Boston, 0; hits, 3; errors, 0. Batteries—Glade and O'Connor; Dineen and Armbruster.

GIANTS TAKE LAST. (BY THE ASSOCIATED PRESS.—P.M.) NEW YORK, June 13.—The last game of the series was won by New York today. Score: Cincinnati, 1; hits, 2; errors, 0. New York, 2; hits, 3; errors, 1. Batteries—Ewing and Schlie; Taylor and Bowmen. Umpire—Conway and O'Day.

BEEBE "THE CANDY." (BY THE ASSOCIATED PRESS.—P.M.) BROOKLYN, June 13.—Beebe of the Chicago team kept up his winning pitching streak by defeating the local team today. Score: Chicago, 6; hits, 1; errors, 0. Brooklyn, 1; hits, 7; errors, 2. Batteries—Beebe and Moran; Eason and Ritter. Umpire—Klem.

AMERICAN LEAGUE. A PITCHER'S BATTLE. (BY THE ASSOCIATED PRESS.—P.M.) CHICAGO, June 13.—In a pitcher's battle here today, Chicago shut out Washington. Score: Chicago, 2; hits, 4; errors, 1. Washington, 0; hits, 4; errors, 1. Batteries—Smith and Sullivan; Hughes and Hackett. Umpire—Klem.

LAJOIE ERRED. (BY THE ASSOCIATED PRESS.—P.M.) CLEVELAND, June 13.—Bernard was knocked out of the box in the first inning. Rhodes, who succeeded him, pitched splendid ball. Lajoie's error allowing New York to score what proved to be the winning run. Score: Cleveland, 2; hits, 3; errors, 2. New York, 1; hits, 3; errors, 1. Batteries—Bernard, Rhodes and Bemis; Chesbro and McGuire.

DETROIT FELL DOWN. (BY THE ASSOCIATED PRESS.—P.M.) DETROIT, June 13.—Detroit had the bases full with one to tie when the game closed. Plank was hit hard in two innings, but pulled out on good work and luck. Score: Detroit, 4; hits, 12; errors, 2. Philadelphia, 5; hits, 7; errors, 2. Batteries—Mullin and Payne; Plank and Powers.

Cost League Gets a Wad. NEW YORK, June 13.—At a meeting of the representative baseball organizations in this city today, \$1,000 was donated to aid the Pacific Coast League.

Golf at San Diego. The golf tournament for the beginners' cup for men at the San Diego Country Club has been won twice by James D. Fordward. His last score was 51 net. Miss Helen Lockett won the beginners' cup for women, with a net score of 54. In the women's monthly cup contest Mrs. Heber Ingie was the winner.

College Baseball. PRINCETON, (N. J.) June 13.—University of Pennsylvania, 3; Princeton, 2.

CAMBRIDGE, (Mass.) June 13.—Harvard, 2; Bowdoin, 0.

Golf Play Saturday. Play in the gentlemen's sweepstakes golf match at the Los Angeles Country Club will begin next Saturday with a heavy entry list.

BRITT AGAIN DUMPS M'CAREY.

BREAKS PROMISE WITH LOCAL FIGHT CLUB.

Smooth Ex-Champion Follows His "Defeat" at Hands of Terry McGovern by Taking Him on for Fifteen Rounds Before the Lincoln Athletic Club of Chelsea, Mass.

(BY DIRECT WIRE TO THE TIMES) BOSTON, (Mass.) June 13.—(Exclusive Dispatch.) Jimmy Britt and Terry McGovern were scheduled for a fifteen-round bout at the Lincoln A. C., Chelsea, in a few weeks. Miah Murray signed for Britt in New York this week, and the deal has been made for McGovern to fight McGovern.

The best reports here are that McGovern is in good condition, and that the two will furnish a battle that will be talked of for many days. The date will be about the middle of July. Tommy Murphy has agreed to fight the winner of tomorrow's battle here between Charlie Neary and Kid Gooden, but refuses to begin down as he claims he has been weakened by fever. The Murphy-Baldwin bout is off, as Murphy refuses to make weight.

For some reason Britt has twice side-stepped the Pacific Athletic Club, and many are inclined to the belief that there is method in his madness. McGovern offered to sign Britt with some top-notchers in August, and Britt suggested McGovern for a return match. The McGovern go did not look right to fight here, and few took it to heart.

Why Britt should receive a drubbing at the hands of McGovern for ten rounds was against all rules of the ring, for McGovern has been all but out of the going for some time. It has been remarked that Britt did not want to beat McGovern, so that he could get another whack at him before a larger house, thus double-shooting the turn of his career. McGovern, however, in Los Angeles he will have to allow others to select his opponents.

PLAY GOES MERRILY ON. Dunnigans Take a Spurt in Handball Tournament and Hall Takes Double-Header Easily.

The Dunnigans yesterday refused longer to keep company with Hedderly in the handball tournament at the Los Angeles Athletic Club, and recognizing the hopelessness of the struggle for the leather medal, cut loose and won a game each.

Clemente gave Ray Dunnigan a run for his money, and lost by a narrow margin, and Dick Dunnigan found interest in his match with Ben Brain.

Hall had a winning streak on his jersey, and took both games in which he participated, and Gus Hill was among those who got inside the money.

Women's Frank and Garbutt refused to perform, and the pepper-sauce brigade was deprived of its greatest amusement—joshing "Decatur" and "Badger."

The scores for the day are as follows: Hall beat Dick Dunnigan, 21 to 3; Whelan beat Moore, 21 to 13; Hall beat Parsons, 21 to 1; Hill beat Clemente, 21 to 1; Dunnigan beat Clemente, 21 to 19; Dick Dunnigan beat Ben Brain, 21 to 11.

To Name Defender. SAN DIEGO, June 13.—(Exclusive Dispatch.) Deputy County Recorder M. M. Moulton, representing the San Diego Rowing Club, with General Secretary Smith, representing the Y.M.C.A. Rowing Club, will select a name for the Lipton Cup defender being built by the San Diego Yacht Club. A list of names will be selected and submitted by the girls' rowing clubs, which list must be submitted not later than June 17. The decision will be announced on the 15th.

ANDERSON & CHANDLER

THOROUGHBREDS ARRIVE.

Big Shipment from Haggins' California Stud Reaches New York in Good Condition and Will Be Sold.

(BY THE ASSOCIATED PRESS.—P.M.) NEW YORK, June 13.—The special train from California which left J. B. Haggins' old breeding farm, Rancho del Paso, last week, arrived at a sale paddock at Sheepshead Bay yesterday and unloaded the 218 yearly thoroughbred horses that comprise the last shipment of horses ever to be made from the once famous Rancho del Paso.

The horses occupied seventeen cars and were accompanied by men from Haggins' regular staff of stud managers with John Mackey in charge. All the horses arrived in good condition. They will be quartered at the stable of the sales company until the sale, which will begin Thursday, June 21. The yearlings are the product of about twenty successful stallions, including Water Cream, Star Ruby, Indio, Todington, Royal Flush, Montana, Gold Finch, Golden Garter, Bassettlaw and Darenbin.

Faculty Defeats Seniors. NEW YORK, June 13.—(Exclusive Dispatch.) Columbia seniors, in the annual baseball game between the faculty and the graduating class, held on South Field today, attempted to reverse their relative positions at students and teachers, and teach their staid professors something about baseball. The professors, however, refused to reverse and they still maintain their reputations as instructors by defeating their opponents by a score of 6 to 3 in a five-inning game.

Building Athletic Fences. Ed Taylor, the promising sprinter and hurdler of Santa Paula, has signified his intention of entering Occidental College next year, and Coach Merrill believes he has a corner in Taylor. Taylor will be put on the gridiron and coached at the broad jump, in which he is believed to be Haggman's successor.

Merrill After Tital. Coach Ed Merrill of Occidental College is negotiating with J. A. Tital, a Harvard man, whom he desires as assistant in the Presbyterian Institution's athletics next year. Tital is now attending the summer sessions at Yale, and is said to be a good man on track and field. He worked under Dr. Sargent of Cambridge.

Occidental Ball Team Banquet. The victorious Occidental baseball team was banqueted last night at the home of J. A. Merrill, father of Bruce Merrill, a member of the team.

CALIFORNIA FLAG HISTORY.
The story of the flag of the state of California is a story of the state's history. It is a story of the state's growth and development, and of the state's place in the Union. The flag of California is a symbol of the state's identity and of its people's pride. It is a flag that has stood the test of time and that has become a part of the state's heritage. The story of the flag of California is a story of the state's history and of the state's people. It is a story that is worth knowing and that is worth remembering.

Robinson Company
BOSTON DRY GOODS STORE
235-237-239 SOUTH BROADWAY

From July 1 to September 15 this store will be closed on Saturdays at 12:30 noon.

Sale of White Wash Stuffs
On Friday, Not Today

Noteworthy reductions on white goods that are as staple as flour in a grocery store—stuffs that you have use for every month in the year.

36-inch Nainsooks of the quality we are selling today at 25c will be sold tomorrow at TWENTY CENTS a yard, or \$2.25 for a 12-yard piece.

And the real Glasgow Linen Finish Suiting at 10c a yard. But those prices hold good for tomorrow only mind you.

(Annex.)

Undermuslins
1-3 to 1-2 Under Regular

This month's selling has broken all records, yet the assortments (in all but the lowest-price sorts) are broad enough to satisfy the most exacting. The sale started with thousands of sample garments, from the makers who supply our regular stocks—it's not a collection of flimsy trash gotten up for "sale" purposes.

And there is not a piece in the whole gathering that isn't priced at least a third lower than we can sell the same sort when bought in the regular way.

(Rear of Annex.)

NEAT AND PRACTICAL SUMMER SUITS FOR BOYS
Every mother in Los Angeles and vicinity is invited to inspect our Little Tudor play suits for boys. They are just the thing for tumbling around in the sand at the beach, for climbing over the rocks and trees in the mountains, etc. For the price of an ordinary suit you can buy several Little Tudor play suits, and have a clean suit for the boy every day in the week, Sunday included. The cut above shows the style. The are made in a big variety of washable materials in good dark colors. Ages 1 to 6 years. Price only 50c.

Harmon & Franks
LONDON CLOTHING CO.

Val. Laces Few stores whose stocks are complete enough to satisfy the demand for these much wanted laces, even at full price. Speaks well for the breadth of our assortments that we can quote this sale price on lines which range in actual value up to \$1.65 a dozen. Just the season, too, when most garments requiring Vals. are being made, hence doubly timely in its coming.

Edges and insertions in widths from 1-2 to 2 inches. French and German Valenciennes laces, in splendid qualities—not coarse or undesirable patterns.

Lace Boleros
Today—and today only—we shall offer the finest qualities of Princess, baby Irish, Pt. Gaze and Cluny lace boleros, for which we've been getting \$20 to \$50. at half price. They're not ones whose popularity's on the wane, nor old styles, but our newest and prettiest, and the opportunity to secure these stylish garments at half is truly an exceptional one.

Three 25-Cent Sales
Folding fans of 80c grade, 25c
White embroidered wash belts, 25c
Cut crystal hat pins, nearly all shades, 25c

Pay a Third Less
For Drawnwork Pieces
(Art Needlework Dept.)

A brand new stock of drawnwork and Cluny lace (some with linen centers, others all lace) Japanese and fillet table covers, scarfs and dollies is yours to select from at a discount of one-third from prices already low. Fifty cents to \$13.50, their worth—35c to \$8 their selling price. Most appropriate gifts for brides-to-be.

Half Priced Ribbons
For Pillow Rufflings
50c Values 25c Yd.

Linen ribbons with satin edges, and Oriental designs in colors with touches of gold, full 4 1/2 inches wide. For pillow rufflings they're very effective, or you can use them as belts with summer suits. Made to sell at 80c, our special price 25c a yard.

Good Silks Underprice
32-inch Kimono silks cut from 85c to 65c a yard, just because we've only three pieces left—gray, pink and cardinal, with small colored figures. All silk fabrics that make up beautifully into kimonos.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

NERVY BURGLAR IS THIS ONE.

PASADENA DOCTOR HAS A MID-NIGHT EXPERIENCE.

Mysterious Man With a Black Muffler Steals Into Kitchen, and Immediately Becomes as Friendly With the Dog That the Doctor Wags Its Tail a Bit Too Gladly.

PASADENA, June 12.—[Pasadena Office of The Times, No. 34 South Raymond Avenue.] An extremely nervous burglar made an attempt to rob the home of Dr. Ion Parks on North Los Robles avenue at an early hour this morning, but for the fact that the doctor was late in reaching home and had not retired, would probably have gotten away with a large amount of loot.

Dr. Parks was out of town all day on business and returned home on the last car from Los Angeles. When he arrived he did not feel sleepy, so went into his library, where he picked up a book to read. He had been reading for some time when he thought he heard a dog which was kept in the kitchen next to the library—striking its tail on the floor as though some one was petting it.

At first the doctor paid no attention to the noise but as it continued he came to the conclusion that there was some one in the kitchen and, sitting up, he went to the door between the two rooms and threw it open. When the light from the library was thrown into the other room Dr. Parks discovered that there was a man standing over the dog petting it as though he wanted to silence the animal.

The intruder looked up in surprise when the owner of the house entered and, without waiting to speak, unceremoniously turned and fled through the open door. Dr. Parks started after him, but the fellow had too great a start and succeeded in getting around the east side of the house, where the shadows were heavy, and leaped over the fence before his pursuer caught up.

Dr. Parks hurried to the telephone at once, and called up the police station. Patrolman Nicol was sent out from the station and on the way met Officer Blase. The two officers went to Dr. Parks' residence, procured lanterns and searched the premises. No clue to the identity of the burglar could be found. In his hurried exit the man kicked over the garbage can at the side of the house, but otherwise disappeared as quietly as he came.

Dr. Parks describes the burglar as being dark complexioned, about 5 feet 8 inches in height, weight about 160 pounds, age between 35 and 40 years. He was dressed in a black or dark colored suit of clothes, and had a muffled around his neck and the lower part of his face. He was smooth shaven.

That the man was a cool one is shown by the fact that he entered the house at a time when he must have known that some of the children were up, as the light from the library, where Dr. Parks was reading, showed plainly through the window. The police are on the lookout for the culprit, but he succeeded in covering his tracks so well that they have been unable to find a trace of him.

COMMITTEE NAMES OFFICERS. The joint committee appointed by the Board of Trade and the Merchants' Association to make arrangements for the Pasadena picnic, met this morning and organized by electing officers. The committee is composed of Messrs. M. P. Green, Harry Goehagan, J. Herbert Hall, and S. M. Munson of the Board of Trade, and Messrs. Herman Hertel, D. G. Andrews and George J. Brenner of the Merchants' Association. Brenner was elected chairman of the committee and D. W. Coolidge, who is secretary of the Board of Trade, was chosen secretary.

SEA FENCED OUT AT VENICE.

BULKHEAD REINFORCEMENT IS TO BEGIN TODAY.

Great Quantity of Sand Will Be Deposited Back of the Wooden Wall Which Has Been Built to Protect the Homes Along the Front from Being Undermined.

VENICE, June 12.—Work is to be begun tomorrow on a bulkhead improvement that promises to be a notable one. A large centrifugal sand pump was placed in position, the electric motor has been connected with the power circuit and the current is ready to be turned on. The pump is to be located on Short Line beach, thirty-five feet from the bulkhead line, and when it begins operations the sands of the beach will be utilized in making what is expected to be a permanent filling behind the newly-constructed bulkhead.

This bulkhead is 216 feet in length and has just been completed. It was built at a cost of about \$10,000 and was designed to protect the ocean front and the residences of Short Line beach that have a fringe of rippling dunes that sweep in from the northwest when the sea is running high. After the completion of the Venice bulkhead last summer, the currents seemed to pound with terrible force upon the shore line south of Venice, and the rippling dunes were eaten away for fully fifty feet, sidewalks demolished and residences undermined.

The bulkhead was deemed essential for the protection of the beach frontage and seaside cottages. Contractors were hurried to the scene and a civil engineer was paid \$500 for an opinion. He advised the building of a bulkhead, and it followed in response to his recommendation. The city of Ocean Park was without funds to perform the work, so Dana Burke, president of the Board of Trustees, Klunne and Burke, guaranteed the cost. A bond election was called for the purpose of raising the funds. The contract was let. Work was begun in one place, where the bulkhead was to be built, but the work was prosecuted with vigor, the property owners having signed a check to pay \$1.50 a running foot for whatever part of the bulkhead abutted their property. The city agreed to pay for the part at the street end.

The bulkhead is a firm structure consisting of twenty-four foot piling driven to a depth of about twelve feet. To these are attached heavy stringers which hold in place three courses of 2x10-inch planking set upright and penetrating the sand to an average depth of about ten feet. The purpose of the centrifugal pump is to bring about 4000 cubic feet of sand from the beach. This sand is to be used in raising the level of the beach to a depth of the adjoining property. In this operation the removal of about 18,000 cubic yards of sand and water is necessary. The sand will be pumped along with three parts of water to one of sand. While the water is escaping back to the sea the sand will be deposited behind the bulkhead. The expense of this dredging and gravity filling will be \$5 cents per cubic yard and will be borne by the property owners. The city share of the expense being about two-thirds, as the municipality has agreed to make the filling for sidewalk as well as street ends.

The ocean front sidewalk is to surround the bulkhead for its entire length. The bulkhead is to be built on the beach, to be at the street end of the bulkhead, and to aid the sea in returning at least a part of the sand it has been stealing. One of these jetties will be at the street end of the bulkhead, one at the foot of Carroll avenue, and the third in front of the beach front. The jetties will be at the street end of the bulkhead, and to aid the sea in returning at least a part of the sand it has been stealing. One of these jetties will be at the street end of the bulkhead, one at the foot of Carroll avenue, and the third in front of the beach front.

Proceedings preliminary to the extension of the bulkhead for a distance of 200 feet southward have been begun. This work is to be done under the Vrooman bonding act, the expense being borne by the property receiving benefit, as determined by an assessment levied in the ocean district to be created. For the purpose of starting these proceedings, an association of beach front property owners has been organized. The association has been given the official designation of Ocean Front Official Association. The association will order the work to be done and it is expected that the City Trustees will order the work to be done and it is expected that the City Trustees will order the work to be done.

WHO IS MISSING? Unknown Young Man Leaves San Pedro in Sailboat and Does Not Return. SAN PEDRO, June 12.—Yesterday morning a young man from Los Angeles, whose name is unknown, rented an eighteen-foot centerboard sailboat from Dan Becker and went out for a sail, stating that he would return by noon. Up to a late hour this afternoon he had not returned. A search was made for him, but he was not found. The boat was found in the vicinity of the Point, but it was not clear whether it was the same boat or not. The missing man is about 20 years old, apparently a young man of leisure, and while his name is unknown he has rented a boat of Becker on several occasions, always returning safely.

GRANT FRANCHISE. At last night's session of the Board of City Trustees a franchise was granted to the Interurban Street Railway Company to construct a line in the southern end of the city. The line is to run down Pacific avenue and nearly out to the Point. The franchise was granted to the Interurban Street Railway Company to construct a line in the southern end of the city. The line is to run down Pacific avenue and nearly out to the Point. The franchise was granted to the Interurban Street Railway Company to construct a line in the southern end of the city. EL MONTE MAN BADLY HURT BY A RUNAWAY.

Motorcycle Frightens the Horse Driven by Woman Who Is Riding in a Carriage—Victim of Accident Comes to Her Assistance—His Own Team Shies at Bika.

EL MONTE, June 12.—J. Willis will possibly lose his life as a result of an accident which occurred while he was trying to be of assistance to a lady. Mrs. Samuel Woodworth, wife of the Southern Pacific agent at Basett, was crossing the Basett bridge in a carriage. Her horse became frightened at a motorcycle. The man riding the cycle alighted to repair his machine. Mrs. Woodworth was also driving across the bridge, hurried to assist the man. Woodworth and led the motorcycle past the frightened horse. His own horses became frightened and Willis grabbed the lines and held to them as long as possible, as his own little boy, about 10 years of age, was in the wagon. He was pushed up against the side of the bridge, and the wagon, which was heavily loaded, ran over him. The horses ran on and the little boy was knocked out when passing under a large chain in his head, and he also suffered internal injuries which may prove fatal.

IRVING CLUB FORMED. Citizens of Alhambra Meet and Organize Social Body for Mutual Benefit. Will Build a Clubhouse.

ALHAMBRA, June 12.—At a meeting of representative men of Alhambra, held at Borden Hall last evening, preliminary steps were taken for the formation of the Irving Club, to be devoted to social, literary, athletic, amusement and general improvement purposes. It is proposed to incorporate the club, and the ultimate intention is to build a modern clubhouse, fitted with all the customary accessories of a gentlemen's club, with the exception of a bar. A number signed the membership roll at the meeting last evening and committees were also appointed to secure others. Another meeting will be held at Borden Hall on Monday evening, when the organization of the club will be completed and officers elected.

WILLIAM, THE SILENT. Many Gather at Whittier College to Hear Commencement Exercises. Our Dutch Prototype.

WHITTIER, June 12.—Friends of Whittier College gathered here today from all over Southern California to attend the commencement exercises of the institution. Rev. J. Herndon Garnett of Santa Ana was the principal speaker, and under the caption "Life Ideal of William the Silent" he told the far-reaching effect of that great man's character, crediting him with the origination of many so-called American institutions, which found their prototype in those of the Dutch.

CHILL FOR POMONA. New Ice Machine Having Thirty-five Tons' Daily Capacity is About Completed. POMONA, June 12.—Tests of the machinery of the new \$60,000 Pomona ice plant on East Second street, near San Antonio avenue, are being made. Construction has been going on for five months. The factory will have a capacity of thirty-five tons a day, but the building has been built for future growth, and when necessary another ice machine can be added, increasing the capacity to seventy tons daily. The present ice machine alone cost \$27,000. Seventy carloads of ice can be kept in the large storage room. This room is lined with mineral wool eight inches thick, and outside of this a heavy coating of asphaltum has been placed. The ice will be loaded direct from this room on cars on a spur of the Salt Lake track running to the house.

FIRE WARDEN'S WARRANTS. Chief Fire Warden Morgan came from Los Angeles this morning and swore out warrants before Justice Barnes for the arrest of Fred A. Smith and Dr. E. M. Pease of Claremont.

CLOSED RINKS SUNDAYS? Long Beach Develops a Storm of Opposition to "Sabbath Desecration."

LONG BEACH, June 12.—The managers of the skating rinks have announced that hereafter those places will be open on Sunday and there is a general stir among the church people who believe that Sunday in Long Beach is already too secular. An effort will be made to prevent this, which they pronounce a new desecration of the Sabbath and indications are that the City Trustees have a lively time ahead of them.

SEASHORE WHIFFS. Fisher & Coburn, whose attempt to erect a building on the south end of the auditorium bridge raised such a storm of opposition, have decided to huddle the protests and have leased 4672 feet just south of the bluff and adjoining the west side of the pier on which they will erect a four-story brick block.

Thoughtlessness Carefulness
Makes Spendthrifts and Dependence
Makes Savers and Success

If the surplus is invested in the 6 per cent. interest-bearing deposits of the CONTINENTAL BUILDING AND LOAN ASSOCIATION. HOME OFFICE: Junction Market, Sansome and Sutter Streets, SAN FRANCISCO, CAL. (formerly Wells-Fargo Nevada National Bank.) DR. WASHINGTON DODGE, President. GAVIN M'NAB, Attorney. WM. CORBIN, Sec'y and Gen'l Mgr. ZOMBRO, PAYNE, WITHERS CO., Dist. Mgrs., 129 S. Broadway, Los Angeles, Cal.

Milk that Not Sour

You can't keep milk very long in its natural state and contains active germs.

Carnation Cream comes in sealed tin, and sterilization, will keep it open, and from then on days after opening, remains at temperature. Therefore, won't effect it. Ask your grocer to break the news to you.

During the summer months, from Los Angeles to Chicago, Milwaukee and all Eastern Cities, the Carnation Cream Co. has a special train, the Carnation, leaving Los Angeles at 6:00 p.m. daily.

Reduced Round-Trip Rates. During the summer months, from Los Angeles to Chicago, Milwaukee and all Eastern Cities, the Carnation Cream Co. has a special train, the Carnation, leaving Los Angeles at 6:00 p.m. daily.
